

United Kingdom Cyber Essentials pack

NCSC-aligned remote access vendor evidence

Trustholm - United Kingdom Cyber Essentials vendor pack (summary)

Use with: </compliance/uk/cyber-essentials>

Trustholm does NOT claim Cyber Essentials product certification. Certification applies to the organisation boundary.

Vendor evidence themes

- - User access control: MFA, RBAC, SSO
- - Secure configuration: tenant security settings, signing policy documentation
- - Script integrity: signed PowerShell before execution (partial malware protection narrative)

Customer-operated: patch management, macros, email filtering, AV, CE/CE+ certification pursuit.

NCSC remote access: pair MFA + audit export with your acceptable use and logging stack.
